

BILLY KART

The Urban X Electric Billy Kart has been built with a high tensile steel frame, and has an adjustable frame position (to four levels) which allow the billy kart to be extended to suit most driver heights, Urban X's electric billy kart is fitted with rubber coated tires to assist in a smoother ride, as well as a 200 watt electric motor and two x 12 volt 7AH batteries to allow for a drive time of approximately 50 minutes (depending on the riders weight)

The Urban X Billy Cart reaches speeds of up to fifteen kilometers per hour* and is suited for riders aged 8 plus.

*Please note that the maximum speed of Urban X vehicles varies and is subject to regions and countries individual legal requirements.
